PALE ALES AND IPAS (440ML CANS)

RADAR – Wild Weather -- £6.25

A 5.6% IPA from Wild Weather Ales. Hazy and absolutely packed with flavour, the trifecta of US Ekuanot, Amarillo, and Ahtanum hops produce a multi-tone tropical fiesta of hop flavour and aroma including pineapple, orange, and lemon. A welcoming bitter edge rounds out this offering.

I CALL IT THE ‘SPRUCE MOOSE’ -- Wild Weather -- £6.25

A 7.4% Spruce Tip West Coast IPA from Wild Weather Ales. The next instalment in a series of spruce beers that have become an institution at Wild Weather! The Sitka spruce tips for this particular iteration were hand foraged by Wild Weather staff and volunteers from Reading Amateur Brewers on 28/05/22 from Benyons Enclosure, right behind the brewery! These spruce tips can only be harvested in a 2-3 week period in the year, so we are incredibly lucky to have such an abundance on our doorstep. The unique element that the tips add to this punchy West Coast IPA is well worth the effort. The sticky, sweet resin aroma rises from the beer and greets you before naturally fresh, fruity, citrus characteristics of the spruce tips shine as you take your first sip. Paired with delicious pine and berry notes from the subtle Simcoe hops, you'll never try another West Coast IPA quite like this one.
